## Hit and Hurry Competition

1. In this competition, instead of being eliminated at the first fault, the rider gets two points for an obstacle correctly jumped and one point for an obstacle knocked down. Combination obstacles are not allowed.
2. This competition takes place with a fixed time 45 seconds. Disobediences are penalised by the time lost, but two disobediences or a fall incurs elimination .
3. The winner of the competition will be the rider who at the end of the time has acquired the greatest number of points in the fastest time.
4. When the time is reached, the bell is rung. The rider must then jump the next obstacle and the clock is stopped at the moment when the horse's forefeet reach the ground, but he is given no points for the obstacle jumped after the bell has rung.
5. If the fixed time is reached at the moment when the horse is already taking off, this obstacle, whether it is knocked down or not, counts. The rider's time is taken at the next obstacle as in paragraph 4. If a rider has a disobedience and displaces or knocks down an obstacle, the fixed time must be decreased by six seconds and the bell must be rung accordingly.
6. When the rider does not jump at the first attempt the obstacle at which the clock should be stopped, the round is ended. The rider is then placed last of those who have obtained the same number of points

## Competition over Two Rounds – Table A

1. This competition comprises, with the same speed, two courses, identical or different, either in track or in number of obstacles or in the dimensions of the obstacles. Each rider must participate with the same horse. Riders, who have been eliminated or who have retired during the first round, may not take part in the second round.
2. All the except those eliminated have to take part in the second round.
3. First round – not against the clock  
Second – against the clock

Placing are given according to time and penalties incurred over the two rounds.
